

SciencTech is the first arab accelerator in israel

Solely focusing on science startups, supporting an incredible pool of talents, translating science into groundbreaking ventures. Led by impact organizations, The Galilee Society and Presentense, the accelerator targets PhD STEM students and graduates from the Arab society, providing tools, practices & mentorship to develop their ideas and research into life science and climate tech ventures with accordance to the SDG's blueprint (Agritech, Agrifood, Watertech and more).

SDG IMPACT

Increase inclusion

Support individuals contribute to a stronger & more resourceful Arab society

Working on solutions for the SDG

Creating a life science or climate tech company is a challenging long-term endeavor. The program will offer scientific and business support guidance, as well as multiple resources to provide one stop shop support in developing their ventures.

Best Practices

Mentorship

Market Access

Laboratory Spaces

Networking

Who we are?

The Galilee Society - The Arab Society for Health Research & Services (The GS) is a non-governmental organization located in Israel.

The GS aims to promote health & environmental justice for the Arab minority in Israel through engaging in advocacy, capacity building and research.

The GS has a long-standing record of expertise and experience in promoting equal and just health rights for the Arab minority in Israel and remains a prominent figure in the promotion of health rights, leading health forums, providing professional health consultations to Arab localities, promoting health literacy and pioneering health related research.
